

## Rapid Deployment Vehicle

*For more than 16 years, The Armored Group has developed and delivered Armored and non-Armored Emergency Response vehicles to security forces world-wide. From this direct experience, we understand the importance of getting customer input on the needs of the market and the application requirements for each vehicle. Using that collective information, we bring together quality parts, products and partners to create the very best emergency response vehicles.*

## Rapid Deployment Vehicle

The non-armored RDV unit was developed as an economic alternative to armored SWAT and Command Center units. Instead, the commercial truck appearance of the RDV enables Law Enforcement Teams to take a subtle approach to a security situation. It was also developed to compete with the E-350 Vans being used by many departments.

### Truck Specifications

- Chevrolet G3500 or Ford E-450
- Gas or Diesel Engine
- Automatic Transmission
- Driver and Passenger Hi-Back Seats
- Cab Heat and Air Conditioning
- AM/FM Stereo Radio
- Tilt Wheel
